2020 SUMMER ENRICHMENT PROGRAMME for 16-18 year olds

FREE COURSES FOR

16-18
YEAR OLDS

GROWING RESILIENCE GARDENING PROJECT

With Tayshan Hayden-Smith, a founding Director of Grow2Know

Learn about the transformative power of gardening on your health and wellbeing. The space you will work in is based around our Grenfell Tower memorial cherry tree, and you will learn new skills whilst contributing to the development of the ground into a space you can enjoy and be proud of as a Morley Student.

SMARTPHONE PHOTOGRAPHY CLASS

You will learn a variety of photographic skills and techniques using the camera and some free apps on your smartphone. Practice shot size and scale, composition, the rule of thirds, perspective, use of colour and basic editing.

If some of those words don't mean much to you then that's fine! This course will show you how to take your photos to the next level and share them with each other on our Insta.

FILM & DOCUMENTARY CLUB

We will watch some freely available films together, consider various aspects of their story, characters or locations and then share our thoughts. With each film discussion points will be suggested, and you can send in a short video review for the Insta feed or put it in writing onto the course page.

COOKERY GROUP

This class will give you some simple and healthy recipes each week to try and make and they will be student focused — using mainly readily available and cheap to buy ingredients. A range of recipes will be suggested to cover different dietary requirements and you can share photos of your final creations!

All you need to do is **START HERE** to **REALISE YOUR FUTURE**.
