

YOUR STUDY PROGRAMME/ TIMETABLE:

1 Core aim (your main qualification)

This is the course you will spend the majority of your time doing and you choose it in discussion with our expert advisors. Your final choice is based on your skills, strengths, career aims and current achievement.

We offer:

- **Diplomas** — 1-year courses
- **Extended diplomas** — 2-year courses

Our courses are at:

- **Level 1** — Preparation for formal education and progression into the subject area
- **Level 2** — GCSE equivalent
- **Level 3** — A-Level equivalent
- **Level 4** — Preparation for specialist work or university

2 Tutorial

You will have a personal tutor to monitor and support your progress in learning. We always provide full support to students who need extra help in any aspect of their studies, for example to dyslexic students. When it comes to completing university applications, we will help you prepare and submit your UCAS entry.

3 Work experience

Some courses have work experience placements as a part of gaining the actual qualification. All courses at Morley College London will include at least one week of work experience taken either in one block or as separate days. This will help you gain an understanding of the industry you are studying and give you confidence and skills you can apply to your qualification.

4 Enrichment

Our youth work team provides a programme of activities and services throughout the year. Some of the extracurricular opportunities on offer include organised trips such as skiing and paintballing; cultural awareness events; volunteering opportunities within the community; applying for scholarships and awards; and opportunities to get involved in sports.

5 Maths and/or English GCSE or Functional Skills

If you have not yet completed Maths and/or English to a grade 4 then you will attend this as well, as part of the legal requirement of your study programme.

Our Maths and English department will support you in gaining the necessary Level 2 qualifications. They are supportive and experienced in teaching students who may

And remember that you can **contact us** anytime should you need any support and guidance along the way.
